

Best Practices: Using Data in a Hybrid AOI to Produce Academic Success

- Steve Durand, Executive Director
- EOPA/EOHSLC

Our Mission Is To Help
Every Student Graduate.

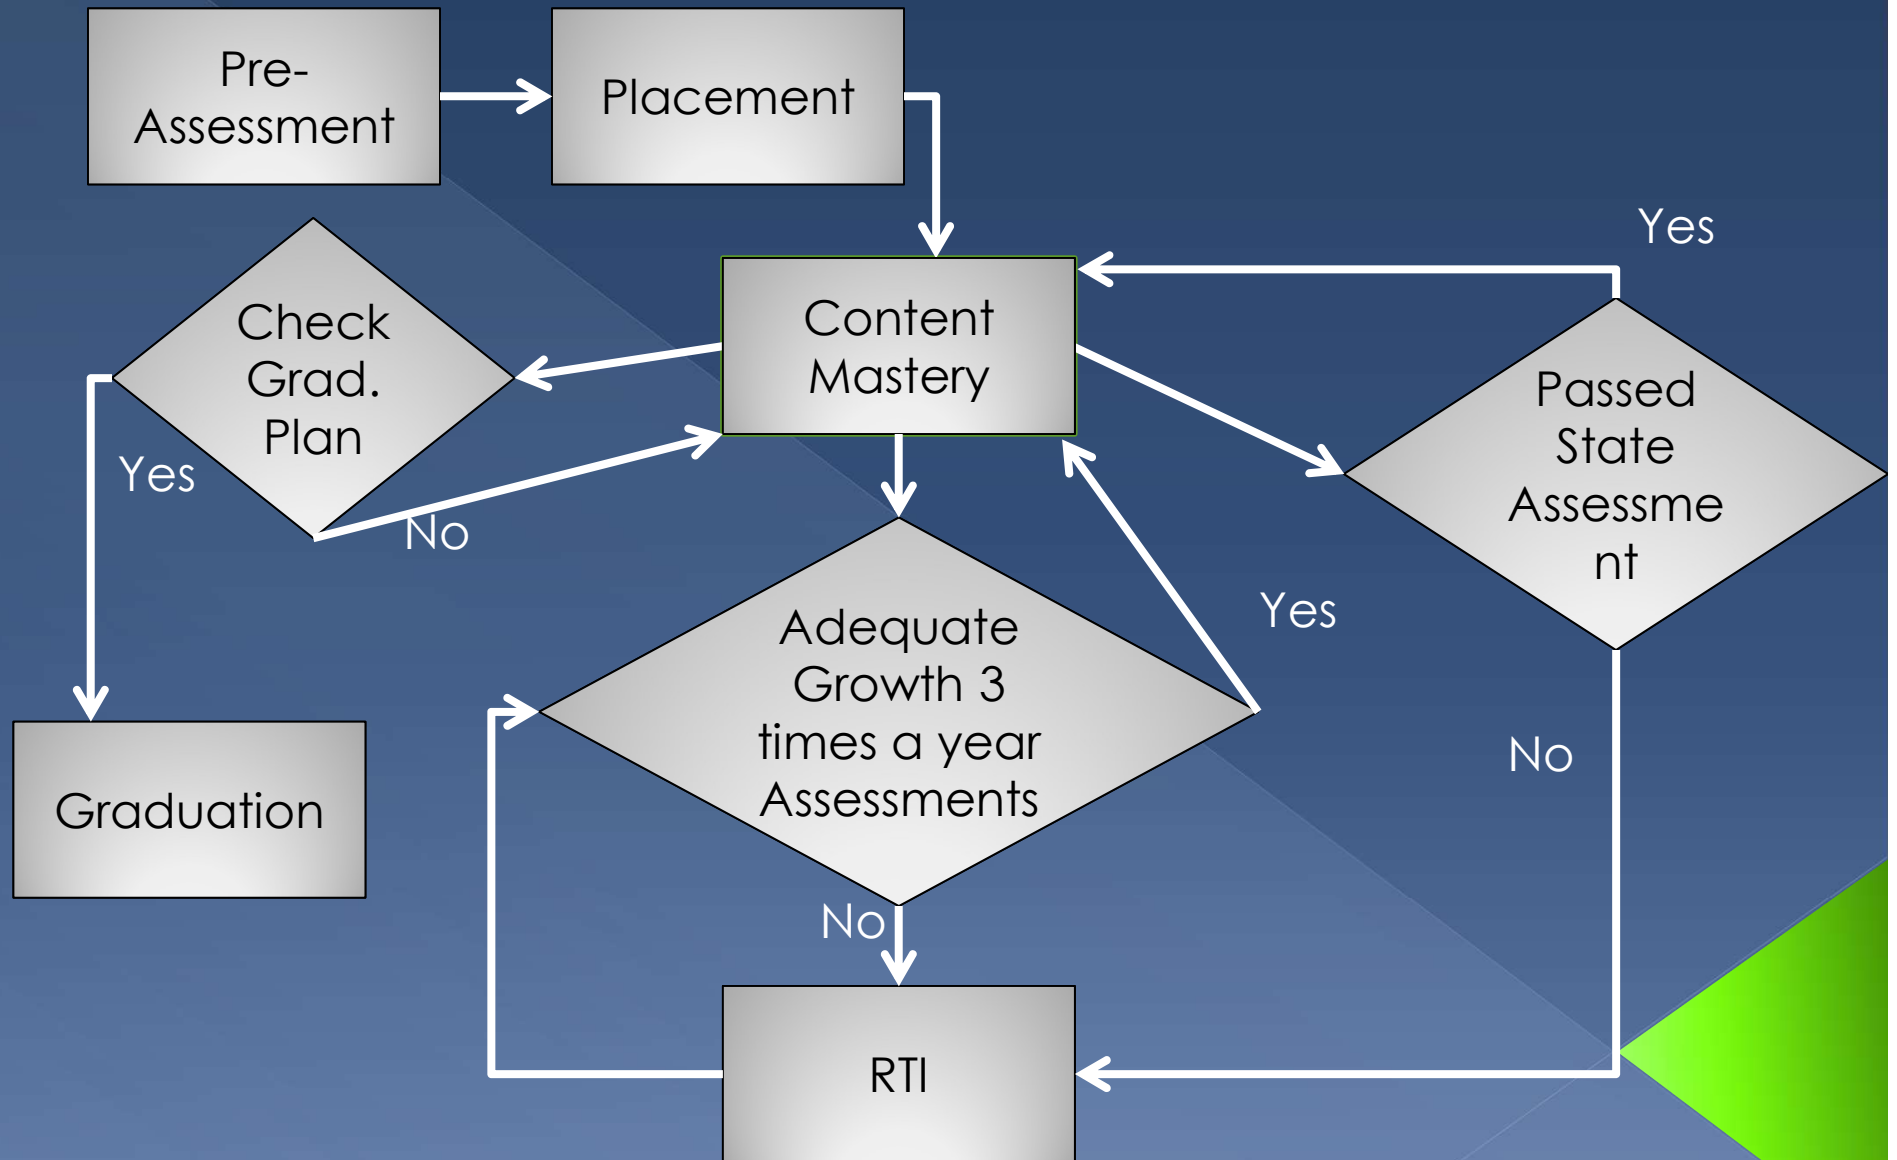

Using Data To Ensure Student Success

- Earn the required credits to Graduate
- Pass AzMerit Tests
- Prepare to transition to college, workforce, or technical program.

The Process

- Assess Student Academic Level
- Placement into Proper Course by Academic Level instead of Cohort
- Content Monitoring with- Participation, Performance, Pace (P3). Finish Courses with Content Mastery
- Quarterly reassess for overall Student Progress
- Response to Intervention (RTI)
- Graduate High School

Student Process from Intake to Graduation

Pre-Assess Student Academic Level at time of Intake

1. Administer Lexile/Quantile Assessment Test to Determine Student Knowledge Level
 - Example is SI Bench Test or TABE (we use SI Bench Test)
2. Review Transcript to assess past performance (P3)
3. Review AzMerit test results data Triangle
 - AzMerit Prep Software and Small group learning.

Placement

- Place students in Skills Development
- Place students in AzMerit Prep
- Place students in a Foundational Skills class such as Reading essentials or fundamental math. (Elective Level)
- Determine initial level of AOI time spent at the school/learning center and amount of time spent at home

Review Assessments and place students into any RTI that has been identified during intake.

We place students in courses that are aligned to their academic level not just their cohort.

Content

- Place Students in Core Course with a Pre-Assessment and Post-Assessment tests to further track Student Growth.
- Provide an easy online monitoring tool to allow all stake holders to easily find and review student progress daily.(P3)
- Focus Students and Teachers on Mastery not short term completion of work.
- Mastery must not be simply be able to answer on the daily quiz but can they retain the knowledge and demonstrate mastery on both the Final exam and the Post Assessment test.

P3: Keys to Student Success

- P3 is our over-arching guide to tracking student progress
 - > Participation (Attendance/ Hrs of Work)
 - > Performance (Grades and Growth in all Academic Tests)
 - > Pace (Ensuring students are making adequate progress towards Graduation)
- ★ We Monitor P3 For each Student while in their courses. To do this you will need a good monitoring/ communication tool. One we like is the Connector.

Participation (Attendance)

Our School AOI program runs 24 hours a day, seven days a week, 365 days per year. Full-time online students are required to clock a minimum of thirty (30) hours per week while enrolled in the program. This is required for every week the student is enrolled, regardless of holidays. Time sheets are submitted weekly by the student. Timesheets will be provided. It is very important that each student understand that the timesheets are considered attendance, and the information is submitted to the state for attendance purposes.

Expectations

- Students will be engaged in school work to meet schools expectation of a minimum number of hours per week.
- Students will maintain a daily log of their work on a weekly log sheet.
- Weekly log sheets will be turned in weekly.
- Students will attend all scheduled labs and tests.
- Students will conduct themselves in a respectful manner at all times.
- Students will maintain contact their teacher or lab manager so any questions or issues can be resolved quickly.
- Students will be monitored daily by staff to follow Participation.

Performance (Grades)

Each course offered by our online school generally contains lessons, review tests and a cumulative final exam. Students are required to complete the lessons and tests in order and mastery is required. RTI outside of primary CDS may be required if teacher deems necessary. If a student works past the midterm, the teacher will remind them to take their midterm assessment. Students are required to attain minimum school performance levels on submissions, midterm exam, and cumulative final exam.

Expectations

- Students will complete the lessons and submissions in order.
- RTI outside of primary CDS may be required if teacher deems necessary.
- Students are required to take the midterm and final exam when they reach it. Contact your teacher 24 hours in advance to have the midterm opened.
- Students must score a minimum of 70% on submissions. Midterms and final exams must be taken in the lab and proctored by an approved staff member.
- Students will show adequate growth in Knowledge at the end of course. (Core Assessment A to Assessment B)
- Teachers will keep grading current so that all stakeholders can see an accurate picture of a Students performance.

Pace (Progress)

Students are expected to make adequate progress toward completion of their courses and eventual graduation from high school. Teachers will monitor weekly progress and participation to ensure students are logging in and submitting required lesson submission regularly.

Expectations

- Students will work on two classes at a time.
- Students will complete both classes in 6 weeks.
- Students that have not passed one or more sections of the AIMS test will be required to complete a minimum of one hour of AzMerit Prep per day.
- Staff must continually communicate with their students and stakeholders' about student progress and any issues that might affect their pace. Communication can be synchronous or asynchronous, but must be two way communication.

Quarterly Assessment

- Quarterly Data from AzMerit test shows us over all growth in student knowledge.
- If Students are not achieving adequate academic growth then student will receive additional tutoring or remedial content to improve growth.

Data is the tool that determines all decisions that we as staff make from intake to graduation.

RTI – Data

- Daily Data helps us to make choices on whether a student is making adequate academic progress within their CDS.
- Weekly Data helps us determine the level of RTI required for each student both for CDS and AzMerit.
- Six week Data shows us Growth in Student Core learning.
- AzMerit/SAT prep test shows us overall growth in student knowledge.

Graduation

We believe that to ensure student success and improve Graduation rates, data monitoring must be an essential part of every staff member's job.
